

IMMEDIATE ACTIONS

Needle pricks, cuts or scratches

- Wash with soap and water for at least 5 minutes before rinsing.
- Do not scrub or cause any bleeding.

Splashes in eyes

- Rinse thoroughly with plenty of clear running water for at least 5 minutes, hold eyelids wide open, head tilted back and the affected eye looking downwards.
- Contact lenses tend to get washed away on their own, do not try to manually remove them.
- Do not use any collyre or eye solution.

In any situation when **biological liquids and human tumor material** are used, apply the **BBVs protocol**.

IN ANY CASE

- Declare the accident (medical certificate required).
- Inform your **safety manager** immediately.
- All injuries are to be reported using the **occupational health and safety logbook**.
- Report all incidents to the **Occupational Health Doctor** for investigation and follow-up.
- Specify the **product in question** to search for the monograph.
- Monitor the wound, its healing process in the weeks to come. Consult a doctor in case of **inflammation or necrosis**.

PROTECTION MEASURES

- Respect the proper laboratory rules.
- Limit the usage of sharp and cutting instruments.
- Use the personal protective gear equipment.
- Collect any potentially contaminated clothes and place them in a **closed plastic bag**.
